

YUMBAH COOKED MUSSELS IN CHILLED OR FROZEN PACKS

Plump, premium pre-prepared mussels, crafted for convenience and consistent quality.

Yumbah's prime cooked mussels are delicately cooked and instantly chilled or frozen to create Australia's first longer life mussel that has retained its fresh mussel texture and taste.

With up to 50 days chilled shelf life and up to 18 months frozen shelf life, Yumbah's Prime Cooked Mussel is the ultimate convenience and quality solution for both users of fresh and long-life mussels.

Better than long life mussels – Superior Taste and Texture

Most long-life mussels have been cooked over long periods at high temperatures in order to increase shelf life. During this process they lose their plump, succulent texture and sweet flavour. Yumbah's Cooked and Chilled Mussels have been uniquely prepared to give them a 50 day shelf life while maintaining the same texture and delicious taste as fresh mussels.

Better than fresh, live mussels – Convenience and Reduced Wastage

While fresh, live mussels are plump and sweet, the ten day shelf life of fresh mussels limits usage and creates wastage. Yumbah's Cooked and Chilled Mussels have more than five times the shelf life of fresh mussels, reducing wastage. In addition, they have been pre-cooked to perfection, reducing cooking time and the need for experienced chefs.
